SUMMARY

Passionate software engineer with experience leading cross-platform mobile development and full-stack web projects. Focused on scalable system design, high-performance data processing, and creating efficient, high-impact digital products.

EXPERIENCE

Lead Software Engineer — Demo Company

Oct 2025 – Present · Full-time

- Lead cross-platform mobile development using Flutter and FastAPI.
- Drive scalable system design and high-performance data processing initiatives.
- Collaborate across teams to deliver efficient, production-ready solutions.

[\[Flutter\]](#) [\[FastAPI\]](#) [\[Dart\]](#) [\[Leadership\]](#)

Full-Stack Developer — Demo Company

Sep 2023 – Sep 2025 · Full-time

- Built and maintained full-stack web features using React, Node.js, and PostgreSQL.
- Containerised services with Docker to improve deployment reliability.
- Applied analytical frameworks to improve development workflows.

[\[React\]](#) [\[Node.js\]](#) [\[PostgreSQL\]](#) [\[Docker\]](#)

EDUCATION

BSc in Computer Science — Demo University of Tech

Jun 2020 – Jun 2024 · Student

- Core focus on C++, object-oriented programming, and problem solving.

PROJECTS

Awesome Website — Published Website

Astro · Tailwind CSS

High-performance, SEO-optimised web application showcasing modern frontend architecture.

■ [astro.build/themes](#)

Demo Mobile App — Hobby Project

Flutter · Dart · REST API

Cross-platform mobile application built for iOS and Android demonstrating clean architecture and API integration.
